TEIS IFSP Teaming Data Overview

Tab 1 includes service log details for all children receiving "IFSP Teaming" services during the timeframe of January 1, 2022 through January 31, 2023. Field Descriptions:

- Child ID = Unique identifier
- Service Date
- Start time & End time
  - These fields will help to identify co-visits or collaborative services delivered simultaneously
- Service Setting = location where service delivered. Options are:
  - Home
  - Community
  - Telehealth
  - Other (includes clinic and hospital settings)
- Service Delivery = identifies if the service was actually delivered as planned. Options include:
  - Service Delivered
  - Absence due to family
  - Absence due to provider
  - Family no show
- Add User = System user who entered the service log. May be therapist or agency administrator.
- Add Date = date service log was entered
- IFSP Teaming ID Name = identifies if the service was traditional therapy or included activities with other members of the child's service team (Individualized Family Service Plan [IFSP] Team). Options include:
  - Co-visit = Service session where an Early Interventionist working for an Early Intervention Resource Agency (EIRA) joins another therapist, typically a provider of occupational therapy, speech therapy, or physical therapy in the other therapist's session to identify strategies that the EI can carry over into their sessions with the child and family. TEIS allows 6 co-visits per child per year between an EI and other therapies.
  - IFSP Meeting = Individualized Family Service Plan meeting to update goals and determine services for children receiving TEIS services
  - IEP Meeting = Individualized Educational Program meeting to develop goals and determine services for children aging out of TEIS and moving on to the school system
- Agency Name = Contracted agency providing service. Some agencies have multiple contract types and will have a parenthetical designation on their name to denote which contract is delivering the service.
- Agency Type = Contracted agency type delivering the service. Options include:

- o EIRA – Early Intervention Resource agency providing developmental therapy. This is a generalist early intervention service provided in home and community settings exclusively.
  - o Independent – This agency type provides fee-for-service therapies, such as occupational therapy, speech, therapy and physical therapy.
- Service Name = Specific service provided

Tab 2 includes a list of all children with IFSPs during the timeframe of January 1, 2022 through January 31, 2023. You will need to use this to calculate rates (identify children who did not receive IFSP teaming services). Field Descriptions:

- POE = TEIS point of entry (district) office
- Child ID = unique child identifier
- Referral date
- Exit date
